Section 151.169: Home Occupations/Residential

A residential "home occupation" means any business, profession, or occupation for gain or support entirely within a residential building or on residential premises. No home occupation shall be established except in conformity with the following regulations.

- (a) Employees. A home occupation shall have no unrelated employees on the premises and is limited to two related individuals on the premises. One individual must be a principal occupant of the home.
- (b) Floor Space. The total area used for a home occupation shall not exceed twenty-five percent (25%) of the gross floor area of the dwelling, or three hundred (300) square feet, whichever is less.
- (c) Dwelling Alterations. In any residential district a principal residential building shall not be altered -- to accommodate a home occupation -- in such a way as to materially change the residential character of the building.
- (d) Outdoor Storage. Outdoor (unenclosed) storage on the premises of equipment or materials used in connection with a home occupation is prohibited.
- (e) Nuisances. A home occupation shall not generate any offensive noise, vibration, smoke, dust, odors, heat, glare or electrical interference noticeable at or beyond the lot lines.
- (f) Excessive Traffic. There shall be no deliveries, pick-ups or additional traffic in excess of that associated with the principal and permitted use as a single family residence.
- (g) Signs. No home occupation sign is permitted.

I have read Section 151.169 from the Village of Shiloh Code of Ordinances and hereby certify that my home based business will comply with these requirements.
