Sheds

Revised December 2021

If you build a shed 10'x12' or smaller, without electric, a permit is not required.

However, a site layout plan should be submitted to the Village to ensure the correct setbacks and that it will not be in any easements.

If you plan electric in the shed an electrical permit will be required.

Depending on the subdivision, you may need approval from the neighborhood architectural committee.

PLEASE NOTE: These guidelines are not a comprehensive presentation of all the ordinances and building codes involved in placing, erecting, or constructing a shed.

If you have any questions or concerns please contact the Village Administrative Department at (618) 632-1022 or kwilliams@shilohil.org.
